Subject: Re: SWRCB's comments on the DEIS for the BDCP

Sorry!

I could find them on the websites for SWRCB Nor the BDCP, and I didn't look closely at the date on the link for Maven's notebook.

Erin, did Diane send you a copy?

I didn't see an unread message for her in my inbox.

Please stay tuned. Tim

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

Here you go, John.

<http://mavensnotebook.com/2013/07/18/state-water-resources-control-board-submits-comments-on-the-bdcp-eirs/>

This will also be useful to Jane as she reaches out to Caren T. to discuss next Tuesday's interagency meeting.

Can you send me the SB letter?

Thanks!

Subject: good quote from SB letter

The justification for this limited range of Delta outflow scenarios [H1-H4] is not clear given that there is significant information supporting the need for more Delta outflow for the protection of aquatic resources and the substantial uncertainty that other conservation measures will be effective in reducing the need for Delta outflow. For this reason a broader range of Delta outflows should be considered for the preferred project. Regardless of the BDCP proposed project, the State Water Board may establish higher Delta outflow requirements in the future and may allocate responsibility for those flows differently than proposed in the BDCP.
